### PROFESSIONAL SUMMARY

Motivated Frontend Developer(React) with a strong command of JavaScript and React.js framework. I excel in developing functional and visually appealing user interfaces by collaborating with cross-functional teams. Proven expertise in HTML, CSS, and responsive web development. A detail-oriented problem solver with excellent communication skills. Eager to contribute to high-performing development workflows and deliver exceptional user experiences.

### PROJECTS

#### 1. APPLE TV+ (CLONE)

Deployed Link   Github Link

**JavaScript   Git   React.js   HTML5   CSS3   Chakra UI**

- Developed a clone of Apple TV+ movie watching platform using *JavaScript*, *React.js*, *HTML5*, and *CSS3*.
- Implemented features like login, searching products, displaying movies, series, and animations based on different categories.
- Ensured responsive and mobile-friendly design to provide a seamless user experience across various devices.
- Collaborated with team members to integrate frontend components with server-side logic using Git for version control.
- Conducted thorough testing and debugging to ensure the reliability and stability of the application.
