WORK EXPERIENCES

Software Engineer | Digital Darwin Pvt. Ltd.

January 2024- Present (remote) | New Delhi

- Developed and maintained scalable web applications using React.js, Redux, and JavaScript
- Built responsive, reusable UI components with Material UI, Chakra UI, and Ant Design
- Designed and implemented chatbot user interfaces with a focus on conversational design and interaction flow
- Integrated RESTful APIs for dynamic data handling, including error boundaries and loading states
- Implemented performance optimizations, such as lazy loading, code splitting, and memoization
- Refactored legacy code to improve readability, maintainability, and overall code health
- responsiveness

FrontEnd Developer - Intern | Digital Darwin Pvt. Ltd.

June 2024- Dec 2024 (remote) | New Delhi

- Developed and maintained websites and internal tools using React.js, HTML, and CSS
- Implemented UI improvements, resolved layout bugs, and ensured responsive design across devices
- Integrated frontend components with RESTful APIs and handled dynamic data rendering
- Wrote modular CSS for scalable and maintainable styling architecture
- Followed Agile development practices, participated in sprint planning, and used sprint boards for task tracking
- Used Git for version control and collaborated within the development workflow
